COMMUNICATION STACKS

- Agile methodologies (Jira, Monday.com)
- Slack

SKILLS

- Web design, Web application, Responsive, Frontend, Backend, Api development, Maintenance, RestApi, Restful, Git (version control), Microservices
- Problem solving, Troubleshooting

EXPERIENCES

Freelance, Canada – *Backend Developer*

JAN 2024 – APR 2024

- Integrate payment APIs for seamless transactions.
- Collaborate with team members from different countries.
- Develop new features using ReactJs for frontend.
- Maintain and enhance backend functionality with Laravel.

Freelance, Myanmar – *Web Developer*

AUG 2023 – NOV 2023

- Setting up domains for projects to ensure smooth deployment.
- Deploying Laravel projects onto servers for production use.
- Developing new features for projects using Laravel for backend functionality and VueJs for frontend development.
- Releasing REST APIs tailored for mobile developers to facilitate efficient communication between frontend applications and backend systems.

Tamron Technology, Myanmar – *Web Developer*

SEPT 2020 – PRESENT

- Lead deployment of projects developed using ExpressJs and Laravel projects onto servers, ensuring smooth transition from development to production environments.
- Specialize in API integration, particularly focusing on payment gateways, to facilitate seamless transaction processing for clients.
- Develop and release RESTful APIs tailored for mobile developers, fostering efficient communication between front-end applications and backend systems.
- Maintain and enhance live projects built with ReactJs and VueJs, implementing new features and optimizing performance to meet evolving client requirements.
- Conducted research on emerging technologies for project innovation.

SweetyHome Industry, Myanmar – *IT Programmer*

OCT 2019 – AUG 2020

- Develop SAP reports and Crystal reports with SAP HANA DB Studio.
- Develop and Maintain StockReport web application (Codeigniter).
- Api Integration for real time data.
- Dedicated free time to self-study PHP, Javascript to enhance career prospects and skill set.

PROJECTS

Customer Relationship Management – *Detail*

In this project, Frontend is using VueJs version 2 and Backend is using Laravel and being connected with MetaTrader 5 platform. We developed a CRM web app using MetaTrader 5 API for the one of Forex Exchange Trading Company. Also we made our own package and analyzed the MeteTrader 5 API documentation.

Ecommerce Website – *Detail*

In this project, Website is using a full stack framework, Laravel. Anyone can sell easily by just uploading a post. Buyers are able to give reviews and ratings. Sellers can sell to anyone. It also has real time notification and using Facebook and Google authentications.

HoHoDiDi – *Detail*

In this project, Backend is using Laravel and also made a web app for mobile with VueJs but that was not deployed yet. Developed new features and maintained the admin panel and released the RESTApis for mobile developers. App has this feature, customers can order food, make payments, reviews, search restaurants or other entertainments, nearby map and also can be searched with nearby locations.

Blog – *Detail*

This was my first self-learning NextJs web app. I have been learning ReactJs and NextJs from the open source community and I made my own project. Backend(admin+api) is using laravel and the frontend is Nextjs.

PS. I have also developed many other projects (Laravel, VueJs, ReactJs). I won't describe all the projects on GitHub because of company policy. Above all are my specialized projects.

ABOUT ME

I love exploring new things and finding joy in simple pleasures. It's immersing myself in video gaming, I enjoy every moment of it. I believe in the importance of self-enjoyment and make sure to prioritize activities that bring me happiness and relaxation. Whether it's a new adventure or a familiar pastime, I approach life with a playful attitude, always ready to embrace whatever comes my way.
